INTRODUCTION

There are great teachers in the field of science and culture who consider the status of teacher not only as an honorable profession, but also as a very responsible task for the education of the young generation and their future prospects. At the frontiers of this arduous science, he endures all the trials of the huge castle called "Life" and perseveres in its trials, working in the field of science and enlightenment under the consciousness of honesty. his opinion is very appropriate: "The student is not a vessel to be filled, but a torch to be extinguished." it is said that he should arm himself with the knowledge that illuminates the lamp of life, in his formation as a real perfect human being, like a torch. He turned this fact into the motto of his pedagogical work, feeling the figure of the great genius Navoi spiritually, living in the works of the great creator. , even his thoughts became a treasure in the true sense of the teacher Rahim Jorayevich Vohidov.

O. Safarov and H. Safarova, who are among the leaders of children's literature, in the book entitled "A heart that yearns for Navoi" dedicated to teacher Rahim Vahidov, admit that "it all started from studying the life and work of Sheikh Suhayli." and studying the creative heritage of his professional friend

Shaikhim Suhayli, whom he always called "yori azizi", was only an excuse. The result of these scientific researches and literary contacts led to the in-depth study of the scientific heritage of Alisher Navoi, the clarification of the essence of his works, and in general to work as a Navoi scholar.

Indeed, it seems that Navoi's grace and his delicate nature were transferred to Ustaz Rahim Vahidov. In Navoi's personality, respect for science and people was considered very strong. In particular, the artist mentioned in his work "Waqfiya" that his father inherited a lot of land. The great artist does not build any luxury, palace or castle with the income from these lands, that is, he does not spend any money for his own benefit, but, on the contrary, he builds bridges for the well-being and peace of the people, or He builds mosques, madrassas, and baths and donates them to the people. Navoi became a people-loving person to such an extent that at that time he went to the king of his time Husayn Baygara and asked for permission several times regarding the development of the lands around Herat. As a result, the poor and unemployed people will find a solution to their problems. Ulug' Navoi will first of all provide the nation with family peace in order to become educated. It was

teacher Rahim Vahidov who devoted his whole life to knowledge and found his happiness in the classroom of life and in colorful books. Currently, this library is enjoyed by young and old, and at the same time, it has served as a foundation for the development of potential of many students.

Navoi's work, his unique works are a school of examples. The work of several scientists was absorbed in the research and analysis of the great creator's extremely complex and instructive life path, his unique masterpieces, and the images he created. There are many scientists who are studying the work of Alisher Navoi, who is considered a great genius, and understanding the essence of philosophical symbols - Fitrat, Sadridin Ainiy, Natan Mallaev, Vahid Zohidov, Gulom Karimov, Botirkhan Valikhojhayev, Abdugadir Hayitmetov, Najmiddin Komilov, Abdurashid.
