Seyyed Hossein Nasr. Islam philosophy , science and spirituality according to many works wrote His in their work east thinkers legacy wide studied.

Future experts in preparation east thinkers from his works use system work on the way out above thinkers and of scientists works and scientific legacy big important have This works of students scientific and spiritual development big contribution adds and modern education in the system them wide apply it is necessary.

Future experts in preparation east thinkers from his works use system work exit in itself one how many important aspects own into takes This is the system of thinkers their works ideas and scientific heritage learn from them study in the process efficient use and of students intellectual and spiritual development from helping consists of Below this the system work exit stages and main directions cited:

1. East of thinkers his works learning

1.1. of works choice : East of thinkers his works analysis so that their modern specialists in preparation application possible the ones that are determination .

Most important works choose get and they are based on study programs Create .

1.2. Thematic analysis: of works content deep analysis make , their scientific , spiritual and educational importance study Various science and directions according to east of thinkers works with depends topics determination .

2. Study programs integration to do

2.1. Study the plan composition: East of thinkers his works study programs input for special modules Create. Study plans and programs when updating east of thinkers ideas in consideration get.

2.2. Special courses and trainings: East of thinkers his works learning for special courses , seminars and trainings organize to achieve Expertise according to practical in training east of thinkers ideas and principles apply.

3. Innovative education technologies

3.1. Digital resources create: East of thinkers works based on digital education resources create, that's it including electron books , video lectures , interactive textbooks.Online on platforms east of thinkers his works wide promote to do

3.2. Interactive Education: Students in the middle east of thinkers ideas based on interactive discussions, debates and project their work organize to achieve

East of thinkers his works to teach for gamification methods apply

## 4. Study of the process efficiency evaluation

4.1. Control and monitoring: East of thinkers his works learning in the process of students knowledge level and their development evaluation system work exit Tests, tests and practical training through study of the process monitoring efficiency.

4.2. Students feedback: Students in the middle east of thinkers his works learning according to questionnaires and interviews transfer Received feedback analysis study programs constant respectively improvement.

## 5. Scientific and spiritual development

5.1. Scientific research activity : East of thinkers his works learning according to scientific research their work organize to achieve Students and scientific employees in the middle east of thinkers works according to scientific articles , dissertations and studies to write encouragement .

5.2. Spiritual education : East of thinkers spiritual legacy through students spiritual education strengthen Educational at events east of thinkers life and activity about data to give.

Future experts in preparation east thinkers from his works use system work exit not only scientific , perhaps spiritual to enrich in terms of directed . This is the system experts not only own to the profession about knowledge with , perhaps wide worldview , spirituality and humanity ideas with to get rich help will give . East of thinkers works through teaching of students personal and professional development significant contribution adds.
