
SIMPLIFIED DOCUMENTATION PROCEDURE

Turayev Temurbek Oybekovich

MIB Inspector General, Uzbekistan

ABSTRACT: This thesis analyzes the process of maintaining documents in a simplified manner. Simplification of documents is an approach aimed at simplifying legal processes and their effective implementation. The thesis also examines the basic principles, legal foundations and practical approaches to maintaining documents in a simplified manner.

KEYWORDS: Law, document, principle, debt, compulsory execution, property.

INTRODUCTION

Documents simplified in order to conduct legal processes further effective and fast to do for the purpose done This approach , the state services optimization and to citizens convenience create for important importance has . Simplified in order documents to conduct processes , especially mandatory execution , tax debts to collect and administrative fines assembly such as in the fields important place holds .

Execution work of conduct simplified in order mandatory execution to grow collection to the debtor's property (from money funds except) not addressed and to the debtor relatively responsibility measures unused without done In this case, the debtor relatively only The first paragraph of Article 432 of this Law in part in mind caught mandatory execution to grow measures application possible . Execution work of conduct simplified order debtor physical from individuals administrative fines , taxes debt and state duty to collect about execution to the documents relatively implementation [1] . Execution work simplified in order to conduct according to state performer by decisions acceptance not done (from now on) execution collection to collect about decision except), collection debtor's to live to the place or property standing to the place not gone without , information and communication technologies application way with remotely standing done is increased .

Execution work of conduct simplified in order mandatory execution to grow measures this of the substance sixth in part designated term finished from the day considering three work from the day many not been within the period This is applicable . for a period of time debtor's work from his salary , scholarship , pension and other kind of from their income money funds hold remaining time does not enter .

Many foreign in countries documents simplification processes successful current For example , Europe Union and In the USA this such as procedures to citizens administrative fines or tax payments in payment , as well as execution documents in execution help gives [2]. Foreign from experiences usage , simplified of the system efficiency further to increase help gives .

Documents simplification process main goals are :

- Processes acceleration - bureaucratic obstacles reduce and legal processes simple to do through time saving .
- Efficiency increase - state of the organs work relief and of actions coordination improve
- To citizens convenience create - documents remote in a way , information and communication from technologies used without to conduct opportunity .
- Expenses reduce - administrative expenses and from resources effective use , processes non-repetition to provide .

Documents simplification process , that's it with together , legal of the system transparency to increase , corruption also serves to reduce does [3].

Documents simplified in order to conduct process state management and citizens between legal relationships effective done to increase help This process not only time saving , maybe bureaucratic obstacles reduce and law priority also serves to provide does . In Uzbekistan done increasing documents simplification practice further improvement need and foreign from experiences use this the process effective done in increasing important importance has .
